

10/606,203 filed 06/25/2003
Wesley B. Dong
Petition to Amend after Notice of Allowance

REMARKS/ARGUMENTS

The above-identified application has been allowed. Applicant has belatedly identified an error in the "CROSS-REFERENCE TO RELATED APPLICATIONS" paragraph of the application. As indicated on page 2 of this paper, the relevant U.S. Provisional Patent Application Number was misidentified in the specification as 60/386,038, when it should have been identified as 60/392,210. *Please note* that the parent application and parent application date were identified correctly in the Application Data Sheet mailed June 25, 2003, and were recorded correctly in the U.S. Patent and Trademark Office, as verified via Applicant's Private PAIR. Therefore, the proposed amendment requires no additional search or examination.

Applicant hereby requests the Examiner to recommend entry of Applicant's amendment to the specification.

Respectfully submitted,

Ann C. Petersen
